Times are tough. We at GoldLantern hear you. That's why we came up with the G-Value Bluetooth Headset. Cheap price doesn't necessarily have to mean cheap product. The G-Value from GoldLantern is a fully functional Bluetooth version 2.0 headset powered by a high quality CSR chipset which is the gold standard when it comes to Bluetooth sound quality and feature set. Although it only weighs a mere 7 grams, the G-Value delivers a potent 4 hours of talk time and 110 hours of standby. While other headsets cost two or three times as much as the G-Value, we know you are smart and would prefer to save the money or get a couple of extra ones for your friends and family.
